DETAILED ACTION

1. This is in responsive application filed on 4 March 2002, and correspondence filed on 12 June 2002.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 12 June 2002 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.
3. Claims 1 – 21 are presented for examination.
4. Claims 1 – 20 are allowed.

EXAMINER'S AMENDMENT

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Huang [reg. 39229] on 25 April 2005. The examiner's amendment was necessary to place application in better form and condition of allowance with an expedite prosecution. The application has been amended as follows.

6. In the claims:

Please cancel the claim 21.

Reasons For Allowance

7. The following is an examiner's statement of reasons for allowance: Applicant's claimed invention distinguishes over the prior art for following reasons.

The independent claims 1, 13, and 20 are allowable over the art of record and none of the references either alone or in combination, discloses or renders obvious a device and method for powering a data communication port with a power controller configured to provide power signal from power supply to the communication port in response to communicating with supervisory circuit, and after losing communication with the supervisory circuit for a period of time by selectively continue to provide a power signal from power supply when a local parameter has a first value, and discontinue to provide the power signal when the local parameter has a second value.

The independent claim 7 is allowable over the art of record and none of the references either alone or in combination, discloses or renders obvious a circuit and method for powering a data communication port by providing power signal to the communication port in response to communication with an external component, and after losing communication with the external component for a period of time by selectively continue to provide a power signal from power supply when a local parameter has a first value, and discontinue to provide the power signal when the local parameter has a second value.

The independent claim 19 is allowable over the art of record and none of the references either alone or in combination, discloses or renders obvious a computer program product includes a computer readable medium having an instructions carried

out by a circuit for powering a data communication port by providing a power signal to the communication port in response to communication with an external component, and after losing communication with the external component for a period of time by selectively continuing to provide a power signal from power supply when a local parameter has a first value, and discontinuing to provide the power signal when the local parameter has a second value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
